

Excelquenched L1664Z

Marquenching oil for use at elevated temperatures

Product code: Q017

Product Description:

Excelquenched L1664Z is manufactured from solvent refined base oils of high chemical and thermal stability and is fortified with selected additives, which provide excellent oxidation resistance and consistent quenching rates.

Application:

Excelquenched L1664Z is designed mainly for use in hot quenching applications, where working temperatures between 120° - 180°C are common.

Excelquenched L1664Z is the ideal choice where maximum hardness is required without distortion.

Excelquenched L1664Z may also be used for selected cold quenching and stress relieving.

Benefits:

- High flash point
- No volatile fractions
- Excellent stability

Typical Test Data:

Excelquenched	L1664Z
Product code	Q017
Specific Gravity @ 15.6°C	0.884
Kinematic Viscosity @ 40°C (cSt)	123.0
Flash Point (°C)	225
Pour Point (°C)	-12
Appearance	Clear brown fluid

Health & Safety:

Please refer to the safety data sheet, a copy of which is freely available to all of our customers.
