

# Autotrans G

Automatic transmission fluid

Product code: A002

## Product Description:

Autotrans G is a high quality, high performance automatic transmission fluid, manufactured from solvent refined base oils and state-of-the-art additives to provide the desired non-frictional modified properties required in this product.

The additive system incorporated in Autotrans G provides resistance to oxidation, foam, corrosion, and wear.

It is dyed red for identification purposes.

## Application:

Autotrans G is suitable for use in automatic transmissions, gearboxes, hydraulic systems, power steering units, fluid drives and torque converters requiring a non-friction modified transmission fluid to the Ford M2C-33G specification.

## Performance Specifications:

Autotrans G has been formulated to meet the following requirements:

- Ford ESP M2C-33G
- Ford ESP M2C-33F

## Typical Test Data:

Specific Gravity @ 15.6°C	0.865
Kinematic Viscosity @ 100°C (cSt)	7.47
Flash point (°C)	205
Copper Corrosion	Nil
Foaming characteristics :	
Sequence I	100/0
Sequence II	100/0
Sequence III	100/0
Sequence IV	100/0
Colour	Red

## Health & Safety:

Please refer to the safety data sheet, a copy of which is freely available to all of our customers.
